KROHNE
measure the facts

KROHNE is an innovative process instrumentation and measurement solutions company operating in more than 40 countries. Through continuous research and development and a consistent customer orientation, we are one of the leaders in our industry. KROHNE Inc. headquartered in Peabody, MA covers the United States, Canada, Mexico, and the Caribbean regions through a vast network of direct sales personnel and representative partners.

KROHNE Inc. is looking for a

Field Application Engineer – Southeast Region

Current openings in Technical Support are focused in Field Service. The successful person will be experienced in the service, commissioning and support of process instrumentation products, specifically flow and level products. The person will provide superior level technical support in their territory via direct service and management of field service channels.

Your main responsibilities:

- The Field Application Engineer is responsible to provide application assistance to end customers and sales channels in the field by troubleshooting, commissioning and programming all KROHNE products as efficiently as possible.
- Appoint, direct and support service providers within territory.
- Work independently to perform pre-visit preparation, creating quotations, contacting customers to schedule a service visit date, and on site work. Follow up communication and writing detailed service visit is expected
- This role will require an average of 50%+ travel throughout specified territory and North America. Travel to internationally based factories and offices is also expected.

Your qualifications:

- Bachelor's degree in engineering or three to five years' experience in a similar position.
- Proven success working in the capacity of product specialist for flow and level measuring devices OR proven success working with process control equipment of various technologies.
- Experience with custody transfer applications preferred
- Excellent computer skills including proficiency in MS Office and ERP/CRM
- Demonstrated ability in successfully working independently and efficiently in order to prioritize and address multiple projects simultaneously
- Valid driver's license and clean driving record. Ability to pass safety requirements set forth by KROHNE and/or customers as needed and ability to lift 50 lbs.

We offer:

Salary commensurate with experience and the responsibilities of the role. Along with a full program of employee benefits including: medical, dental, disability, life insurance, EAP, pet insurance Aflac programs and more.

If interested, please send your CV, salary requirements and availability to:
