

▶ Achieve more with KROHNE

KROHNE

▶ measure the facts

KROHNE is an innovative process instrumentation and measurement solutions company operating in more than 45 countries. Through continuous research and development and a consistent customer orientation, we are one of the leaders in our industry.

KROHNE Oil & Gas provides measurement and automation products, solutions and services to the global Oil & Gas industry and is looking for an experienced and highly motivated

▶ **Lead Engineer Piping / Mechanical**

Our Piping/mechanical team in Breda currently consists of 4 people and we are engineering various measurement systems for the oil & gas industry. The main focus is on custody transfer metering systems, but also on other systems like on-/offloading systems or mobile calibration rigs.

Your main responsibilities:

- Use your extensive experience, skills and enthusiasm to design or redesign measurement systems and skids with CAD systems like Autoplant 3D.
- You functionally lead and coordinate a team of engineers in the preparation and realization of project deliverables, in accordance with customer requirements, technical and operational guidelines.

Your qualifications:

- Personal: organized, independent, innovative, pro-active in knowledge sharing and teamwork.
- Education: Mechanical/Piping Engineering or other relevant degree.
- Experience: relevant experience with general piping and welding standards like PED and ASME and software tools like; Autoplant 3D, STAAD PRO, CEASAR, autoPIPE.
- Your knowledge in any of the following areas is must: overall skid design, valves, welding technology, stress calculations(structural steel and pipe stress), flow profile calculations and pressure drop calculations
- Interests: the mechanical and structural aspects within the Oil & Gas industry and particular Custody Transfer Metering

We offer:

KROHNE Oil & Gas B.V. offers a dynamic, progressive opportunity in modern work surroundings.
