

▶ Achieve more with KROHNE

KROHNE

▶ measure the facts

KROHNE is an innovative process instrumentation and measurement solutions company operating in more than 45 countries. Through continuous research and development and a consistent customer orientation, we are one of the leaders in our industry.

KROHNE Oil & Gas provides measurement and automation products, solutions and services to the global Oil & Gas industry and is looking for an experienced and highly motivated

▶ **Software Developer**

Our software team in Breda develops various software products for the process industry. The main product is "SynEnergy", which is web based software for real time data collection, control, data visualization, diagnostics, analytics and reporting.

The software is developed in a SCRUM team with up-to-date tools and technologies and agile methods.

Your main responsibilities:

We have several options available and based on your experience and ambition we are looking for talent to:

- Create new features
- Give support existing modules.
- Test software and provide first line support to our users.
- Or a combination of the above.

Your qualifications:

- *Personal:* creative mind, independent, innovative, pro-active in knowledge sharing and teamwork.
- *Education:* HBO/WO, Information Technology or other relevant degree.
- *Experience:* relevant experience in software development with C#, .NET, HTML5/JavaScript. Your knowledge in any of the following areas is welcome: C++, databases, Windows, Big Data, security...
- *Interests:* software development and related technologies.

We offer:

KROHNE Oil & Gas B.V. offers a dynamic, progressive opportunity in modern work surroundings along with a solid training and education program.
